Pattrick Nunes

Help Desk Analyst L1 | Continuous Improvement & Automation | ServiceNow | CSAT 95%+

pattrickn0@gmail.com linkedin.com/in/pattrick-nunes github.com/pattrickn0

SUMMARY

Bachelor's in Information Systems student with a technical background in IT and hands-on experience in technical support, computer maintenance and system deployment. I have worked in internships and scholarship programs involving user support, troubleshooting, training and event organization. Currently improving my software development skills, with a focus on backend (Java, C#, SQL) and getting started with frontend (HTML, CSS and React).

EXPERIENCE

Help Desk Analyst L1 · Minsait

Oct 2025 – Present

First-level support for users via chat and phone, focused on first-contact resolution and user experience.

RESULTS

- CSAT above 95% in every month on the job, including months with 100% satisfaction
- Average of more than 100 satisfaction surveys answered per month
- Ranked #1 in the operation for volume of positive ratings over a period
- Handled up to 4 users simultaneously on chat without loss of quality

CONTINUOUS IMPROVEMENT & AUTOMATION

- Built ServiceNow dashboards to track queues, volume and team metrics
- Developed ServiceNow macros that standardize and speed up recurring responses
- Developing a Power Apps application to support the team's daily routine (in progress)
- Supported the structuring and management of the backlog workflow

> Previously, served as Single Point of Contact (SPOC) between users and resolver teams: receiving, triaging and routing requests, tracking deadlines and communicating with users through to closure.

IT Technician · Líder Brasil Informática

Aug 2024 – Sep 2025

On-site and remote technical support for clients, from computer maintenance to system deployment.

SUPPORT & MAINTENANCE

- Assembly, maintenance and troubleshooting of hardware and software issues
- Formatting and configuration of computers and peripherals

MANAGEMENT & TIME-TRACKING SYSTEMS
